GEOLOGIC MAP OF THE ELK CITY QUADRANGLE, IDAHO

compiled by
Victoria E. Mitchell and Earl H. Bennett
1979
assisted by
Gail S. Hustedde
Renee Y. Ailee

The Geologic Map Series (2° Quadrangle) by the Idaho Bureau of Mines and Geology consists of geologic compilations from the best sources available. These compilations are not intended to be finished geologic maps, but they should prove useful until such maps are published. Stratigraphic correlations, contact and structural continuity, and general map interpretation are the responsibility of the compilers. Some information has been modified using aerial photography. This project was partially funded through a contract with the U. S. Department of Energy (Bendix Corporation, prime contractor).

Printed by Litho-Craft, Inc.—Boise

Base by U. S. Geological Survey, 1963.
