The image contains a geological map of the Badger Spring Gulch Quadrangle, Lemhi County, Idaho, with various geological features and symbols. The map includes a legend with key elements and a correlation diagram in the upper right corner. There are descriptions of map units, structural features, and interpretations provided in the legend and on the map. The map also includes references to geological publications and reports at the bottom. The map is accompanied by a correlation diagram that illustrates the relationships between different geological units.
