to explore on ski resort
Ellenwood golf course
need to show how 1872
law can be misused

Although the Sun Valley
Co. manages the ski area, the
Forest Service owns the land.
Medberry also wants the own-
ers to lobby for mineral rights to
be withdrawn from public lands
in the Wood River Valley so
mining can’t take place there.

Jack Lyman, executive direc-
tor of the Idaho Mining Associa-
tion, said his group supports
mining law reform, but not the
kind ICL has in mind. “They
want to scrap the mining law,”
he said and find a way to stop
mining in Idaho.

Medberry said Mike (All won’t
be dissuaded from taking out
its claims and plans to pound
metal stakes into the golf course
and on Bald Mountain.

It can do so because mineral
rights on the new private prop-
erty were reserved by the fed-
eral government, Medberry said.

ICL won’t mine golf course

Mike Medberry, public lands director for the Idaho
Conservation League, jokes with Jack Lyman, ex-
ecutive director of the Idaho Mining Association,
about a $10,000 check the association was ready to
give the ICL if the conservation group obtained
legal rights to mine two spots in the Sun Valley
area within a year. The league announced during
a press conference Saturday downtown Ketch-
um that it was turning over its mining rights to
the owners of Ellenwood Resort and Bald Moun-
tain.

Medberry joked that he would still take the money
even though the challenge is moot.

“They’re a pain in the
butt.”
Miners aim to trench Sun Valley

To explore on ski resort Elkhorn golf course needed to show how 1872 law can be misused.

Drew Garber
Boise State

Idaho Conservation and on Bald Mountain could ease hazards to avoid excavation. An Elkhorn mining company hopes to explore Elkhorn Resort golf course on the ski area on Bald Mountain.

Idaho Conservation Society will file incorporating for Mine-All Mining Co. on site. Sept. 30, said Mike Medberry, public lands director for the Idaho Mining Association, about a $10,000 check the association was ready to give the ICL if the conservation group obtained legal rights to mine two sites in the Sun Valley area within a year. The league announced during a press conference Saturday in downtown Ketchum that it was turning over its mining rights to the owners of Elkhorn Resort and Bald Mountain.

Mike Medberry joked that he would still take the money even though the challenge is moot.
